

The Zajac Ranch for Children needs **you** to...

Help us “raise the spirits” of children with special medical needs.

Your donation can help a child’s dream become a reality!

Thousands of children in B.C. suffer with life-long medical challenges. Some illnesses and disabilities are less visible than others, but all of them can hurt these children in ways no one can see. They long to join in the playful games and activities other kids enjoy, but they can’t—without special help. Through the generous support of our communities, the Zajac Ranch is equipped with full medical and emergency services and specially trained counsellors who help free these children from their limitations. This empowers children to create friendships and memories that last a lifetime. For the first time, for many of them, they have fun.

Your gift will help put a smile on a child’s face this summer!

YES, I/we would like to help!
